

1. Policy Statement

- 1.1. To inform registrars and training practices of the EV GP Training (EV) practice match process. EV seeks to provide a fair and equitable placement of registrars within its region.

2. Application and Scope

- 2.1. This procedure applies to registrars, supervisors and training practices in the Australian General Practice Training (AGPT) Program with EV.
- 2.2. This procedure is effective from 1 January 2017.

3. Principles

- 3.1 To be eligible for vocational recognition as a GP, registrars must complete the AGPT program training obligations within specified timeframes set by EV, the Department of Health (the Department) and the Australian College of Rural and Remote Medicine (ACRRM) and/or Royal Australian College of General Practitioners (RACGP). This is outlined in the [ED-Org-8.9 Training Obligations](#) procedure.
- 3.2 Failure to complete within the set timeframes may result in the registrar being withdrawn from the AGPT program, as set out in the [ED-Org-8.17 Registrar Withdrawal](#) procedure.
- 3.3 All GP placements must be undertaken in an EV accredited training practice as outlined in [ED-Org-8.20 Training Facility and Supervisor Accreditation](#) procedure.
- 3.4 EV seeks to maximize the number of training practices available to registrars by facilitating accreditation of eligible training practices for registrars as outlined in the [ED-Org-8.20 Training Facility and Supervisor Accreditation](#) procedure.
- 3.5 The number of practice places available for registrars changes frequently and is subject to a number of variables, some of which are outside the control of EV.
- 3.6 EV makes no guarantee of a training practice placement, nor guarantees that training practices in particular locations will be available.
- 3.7 Registrars accepted into the AGPT program are not guaranteed a placement upon commencement of training.
- 3.8 Although a registrar may be assessed as practice ready, they may not be offered a placement in general practice and may therefore need to consider taking a hospital-based position (such as hospital, extended or advanced skills training) for a period. Applicants should refer to the [ED-Org-8.1 Registrar Selection Policy](#)
- 3.9 Training placements are offered for 6 to 12 months in accordance with the [ED-Org-8.9 Training Obligations](#) procedure.
- 3.10 The matching of registrars to practices aims to achieve the following within the EV region:
 - 3.10.1 Maximise the number of registrars able to be placed to an accredited training practice.
 - 3.10.2 Provide registrar and practice choice.
 - 3.10.3 Provide equitable distribution of registrars to training practices.
 - 3.10.4 Support the particular training needs of each registrar.
 - 3.10.5 Expose registrars to a variety of practices.
 - 3.10.6 Encourage registrars to take advantage of areas of workforce shortage, outer metropolitan and rural and remote practices.
 - 3.10.7 Build long-term clinical capacity
- 3.11 All registrars must demonstrate they have met the competencies to commence training in a general practice as outlined in the [ED-Org-8.3 Prior Learning Assessment](#) procedure, to be included in the practice match process.
- 3.12 During training, registrars must meet their training location obligations as outlined in [ED-Org-8.9 Training Obligation](#) procedure
- 3.13 Registrars must refer to the RACGP and/or ACRRM standards available at www.racgp.org.au/education/./training-standards/ and www.acrrm.org.au/./teaching-posts
