

## Intended Outcomes of Training with EV GP Training

By training in supportive, flexible and encouraging learning environments, all specialist GPs who have completed training with EV will develop and consistently demonstrate:

- Contextualised knowledge across the breadth of general practice, adapted to patient needs in the community setting
- Continued use and evaluation of evidence-based resources to expand and apply their knowledge
- Commitment to provide quality care and service to their communities, including promotion of public health and social equity
- Cultural humility and safety with Aboriginal and Torres Strait Islanders and people from diverse cultural and social backgrounds
- A professional identity as a general practitioner characterised by compassion, high ethical standards and a commitment to lifelong learning
- Application of high-quality communication skills with patients, peers and co-workers
- Development of supportive professional networks and strategies to maintain a sustainable career and well-being
